

RESEARCH PATHWAYS

MATHEMATICAL SCIENCES

Undergraduate research is a cornerstone of our mission at Rutgers–Camden. Our goal is to provide as much support as possible for you to have a successful research experience.

Need funding for a research project or conference travel experience?

We encourage you to visit go.rutgers.edu/ug-grants to see what funding opportunities are available. Currently, you can receive up to \$500.00 to offset research expenses and conference travel expenses.

Looking for a research project?

If you know you want to get involved in research, but are unsure of where to start, visit go.rutgers.edu/curca-hub to view by subject area and keyword the different research projects seeking undergraduate researchers. Currently, faculty are seeking mathematical sciences majors for the

project:

» “Drones for crowd and traffic surveillance,” with Dr. Benedetto Piccoli (piccoli@camden.rutgers.edu).

Unsure if you are research-ready?

To be research-ready, it is required that mathematical sciences majors take the following course: 50:640:121 Calculus I, 50:640:122 Calculus II, 50:640:221 Calculus III, 50:640:250 Linear Algebra OR 50:640:253 Linear Algebra with Applications, and 50:640:314 Elementary Differential Equations.

Who are the faculty? What do they research? What are their interests?

- » Dr. Nawaf Bou-Rabee (nb361@camden.rutgers.edu): Applied Mathematics and Probability
- » Dr. Siqi Fu (sfu@camden.rutgers.edu): Geometric analysis in several complex variables; spectral theory of partial differential operators
- » Dr. Haydee Herrera-Guzman (haydeeh@camden.rutgers.edu): Differential Geometry
- » Dr. Debashis Kushary (kushary@camden.rutgers.edu): Statistics
- » Dr. Will Y.K. Lee (wylee@camden.rutgers.edu): Number Theory
- » Dr. Benedetto Piccoli (piccoli@camden.rutgers.edu): Systems biology and traffic modeling
- » Dr. Longmei Shu (longmei.shu@rutgers.edu): Evolutionary game theory; mathematical biology; isospectral transformations of multidimensional systems and networks
- » Dr. Gabor Toth (gtoth@camden.rutgers.edu): Differential geometry and convex geometry
